

## **RAA November 17, 2020 Neighborhood meeting minutes DRAFT**

Andie called the meeting to order. Ryan Tempest facilitated the meeting.

### RAA updates

Treasurer's report: Steve Bruckal was not in attendance so there was no report.

### Hance Park update

James Orloski from the Parks Department provided a status report. They are on schedule for a ribbon cutting on December 15. He noted that the project is phased, and with the completion of Phase 1A, Phase 1 plans (the middle of the park near Central Avenue) are due in December. In addition to describing some of the future plans, James talked about replacement of trees that have died due to age or heat stress. More trees are being planted than are being removed. He noted that artificial turf near the climbing structure will be permanent.

Bill Scheel asked why the large areas of temporary desert plantings can't be converted to turf. James said Phase 1A was designed to be more desert and future phases will be more green. They are looking at if they can transition the temporary planting areas to turf more quickly.
